ALLAN BUCKLEY FOR U.S. SENATE

For the first time in my life, I will be voting for a Libertarian by the name of Allan Buckley. Allan is running against Senator Saxby Chambliss of Georgia. We need a strong conservative like him leading Georgia and our country.

In a recent telephone interview, Buckley told me he would never vote for a farm subsidy bill like the one that Chambliss supported; he is also against earmarks and pork barrel spending. He wants to see deficit spending ended and a balanced federal budget. Allan is a certified public accountant so he knows the importance of spending cuts and balanced budgets.

If you want to see a strong conservative elected to the U.S. Senate, let me urge you to vote for Allan Buckley and encourage your family and friends to do the same. It is most important to elect small government conservatives like him if we want to see the more than 9 trillion-dollar federal debt eliminated.
